Welcome to the Baltics! A holiday in your future!

Estonia, Latvia and Lithuania are known as the eastern coast of the Baltic Sea. They are located in northern Europe on the close to the size of Germany. If you double the total area of the Baltics you are NATO and Schengen Zone, and use the Euro.

Nestled between the White Sea and the Baltic Sea, the seas which surround the Baltics are home to hundreds of islands, which are inhabited by different ethnic groups. The Baltic Sea is in fact one of the cleanest in the world and a popular destination for those in search of recreation and relaxation.

The Baltic Sea is also home to some of the world’s most interesting cities, which are known for their historic charm and cultural heritage. Tallinn, the capital of Estonia, is one of the most preserved medieval cities in Europe. Riga, the capital city of Latvia, is known for its well-preserved Hanseatic League architecture. Vilnius, the capital city of Lithuania, is known for its rich history and culture, which is reflected in its beautiful old town.

The Baltics offer a unique blend of history, culture, and natural beauty, making it a perfect destination for a holiday. Whether you are looking for a relaxing vacation or an exciting adventure, there is something for everyone in the Baltics.
